

B

SUITE MAJESTIC

All the elegance of the Barrière style is majestically revealed on the 7th floor in the Majestic Suite.

A 4845 sqf penthouse straight out of a dream, pure luxury and elegance on the top floor with a 1615 sqf balcony overlooking Cannes bay, making this one of the most beautiful suites in the entire world.

The suite includes two bedrooms (each with a bathroom, a dressing room, a kitchen and private lounge), a dining room open into a large living room, plenty of light and space thanks to the windows facing the horizon, a fitness & wellness area, as well as a private terrace on the roof with pool.

Pascal Desprez, one of the best current French interior designers, created the original bright and elegant design and was in charge of the previous renovations. The décor highlights the warm, elegant woodwork running from the lounges to the bathrooms. It is lit up by the superb luminosity which is enhanced by materials such as white glass and gloss finishes which always attract & reflect even more light.
