To meet your expectations, Barrière is committed to developing its responsible seminar offer. Our approach to corporate social responsibility is ambitious, going beyond the simple framework of the environment, by placing men and women at the heart of the company's thinking and actions.

It focuses around six thematic axes:

- + Governance, sustainable innovation and dialogue ;
- + Sustainable customer experience ;
- + Responsible employee ;
- + Environment ;
- + Responsible catering ;
- + Local development and solidarity

OUR SUSTAINABLE SEMINARS

In terms of seminars and events, we have been ISO 20121 certified since June 2023. With this perspective in mind, we have set up our environmental charter of food practice in the mice sector, focusing on the impact of events. By signing this charter, we undertake to respect the requirements detailed below in a process of continuous improvement:

- + Reduce and minimize our customers' impact
- + To offer Responsible Catering
- + Develop customer services with low environmental impact

Since April 2023, we have also been a committed partner of the city of Cannes, certified as a Sustainable Innovative Destination.

USE SOFT MODES OF TRANSPORT

In the immediate vicinity of the city center and the Palais des Festivals, choose low-carbon travel: on foot, by bike, scooter or electric bus, the choices are endless!

REDUCE YOUR ENVIRONMENTAL FOOTPRINT

Selective sorting of our biowaste, recycling of waste for reuse, reduction of single-use plastic... We take many steps in this direction. We now also offer the opportunity to contribute to a number of environmental projects, while offsetting the carbon emissions of your trip.

REDUCE PAPER CONSUMPTION

The Resort Barrière Cannes is committed to reducing its paper consumption.

With  **pressreader**, every guest has unlimited access to thousands of online newspapers and magazines.

The Destination Innovante et Durable (Innovative and Sustainable Destination) label is awarded to towns and cities committed to structuring their actions in favor of sustainable tourism. It is made up of different issues, taking up each of the three pillars of sustainable development.

The ISO 20121 standard attests to the sustainable management of event activities in terms of social and environmental impacts, in perfect economic viability.

OUR CHEF COMMITMENTS

RESPONSIBLE CATERING & WELL-BEING

- Offer a local, seasonal, plant-based menu
- Use fish from sustainable fisheries
- Reduce packaging
- Limit food waste
- Treat our bio-waste

RESPONSIBLE CATERING

Locavores, our Tables Barrière give pride of place to seasonal produce, sourced directly from regional suppliers, with a preference for organic products. By favoring short circuits and local, seasonal products, we are part of a socially and environmentally responsible development model.

PROTECTING OUR BIODIVERSITY

The Majestic's roof has something extra.. They buzz. Almost 150kg of honey is harvested each year and used for the production of our cocktails. Our insects help pollinate the local biodiversity established in our Majestic aromatic garden, and provide natural pest control.

LOCAL DEVELOPMENT AND SOLIDARITY

The Cannes resort is also committed to the communities in which it operates. Because these areas are rich in know-how, heritage, culture and solidarity, we make a point of promoting them.

We therefore maintain close links with our regional partners, and are a partner of :

Association Adrien:

Le resort Barrière de Cannes soutient l'association Adrien, une association locale qui œuvre pour venir en soutien d'enfants malades, et à leur famille.

Café Joyeux :

Le resort Barrière de Cannes s'approvisionne et soutient les Cafés Joyeux, une entreprise française solidaire et à but non lucratif, employant des personnes en situation de handicap mental et cognitif.

Bouchon d'Amour & France Cancer :

Dans le cadre de nos actions quotidiennes de recyclage, les collaborateurs des différents services des Hôtels Barrière Cannois collectent les bouchons en plastique et en liège. Ces bouchons sont ensuite donnés respectivement à l'association les Bouchons d'Amour venant en aide aux personnes en situation de handicap, ainsi qu'à l'association France Cancer, œuvrant pour la récolte de fonds réservés à la recherche contre le cancer.

LOCAL ACTIVITIES

RAISE YOUR TEAM'S ENVIRONMENTAL AWARENESS

Discover our beautiful region by bike or on foot!

Discover all our walking, cycling and electric scooter routes in and around Cannes. We're here to help you find the right itinerary for you, based on duration, difficulty and starting point.

GET YOUR TASTE BUDS INVOLVED

Taste the local know-how of our region.

Enjoy a tasting of our region's wines or olive oil while escaping on a tour of local châteaux and estates just outside Cannes. A great initiative to showcase our rich heritage.

IMMERSION OF SCULPTURES BY JASON DE CAIRES TAYLOR

Discover the Eco-Museum in Cannes.

The artist's French and Mediterranean exclusivity, the sculptures are submerged to a depth of 3 to 5 meters, and are accessible to the greatest number of divers equipped simply with a mask and snorkel. The six faces were immersed near the island of Sainte-Marguerite.

CREATE LOCAL

Be creative!

Create your own personal aroma at the Fragonard perfumery in Grasse, or create your own custom glass at the Biot glassworks. After visiting the factories, you'll have the chance to take home your own hand-crafted souvenir.
