

HYDROJET

LIVE A UNIQUE EXPERIENCE. THE SPA DIANE BARRIÈRE ENHANCES ITS OFFERING WITH THE ADDITION OF A HYDROJET MASSAGE BED IN A DEDICATED TREATMENT ROOM.

Featuring exclusive technology, this massage bed provides an unrivalled quality of massage every time, for everyone. Heated to 35°, the water is propelled beneath the mattress, creating massaging waves. Users experience a feeling of deep relaxation, thanks to the effects of the hot water jets.

The Hydrojet massage bed is very beneficial to high-level athletes and those taking part in regular sports as it aids physical recovery greatly. By dilating the blood vessels, it improves circulation and releases toxins. The massage also helps relieve aches and pains, especially to the back, neck and legs.

Go for a tailor-made treatment that focuses on a specific part of your body, or treat yourself to a full body massage. The Hydrojet bed adapts to suit your needs.

Enjoy a 20 or 30-minute session at Spa Diane Barrière. As soon as you lie down, feel the tensions release from your body and experience a feeling of deep relaxation..

20 minute Hydrojet session:	€50
30 minute Hydrojet session:	€65
20 minute Hydrojet session and access to the Spa Diane Barrière facilities:	€180

You can remain fully clothed, without removing make-up to enjoy the session. The massage is equally as effective whether you lie on your front or your back.
